

PUBLICATIONS

Our ParadigMS experts play an active role in shaping international MS care through their contributions as co-authors of peer-reviewed articles.

PUBLISHED: 23/05/2025

The role of microglia in multiple sclerosis: implications for treatment with Burton's tyrosine kinase inhibitors.

Authors: Patrick Vermersch, Laura Airas, Thomas Berger, Florian Deisenhammer, Nikolaos Grigoriadis, Hans-Peter Hartung, Melinda Magyari, Veronica Popescu, Carlo Pozzilli, Maura Pugliatti, Bart Van Wijmeersch, Magd Zakaria, Celia Oreja-Guevara.

PUBLISHED: 15/04/2024

Generics, Biosimilars and Follow-On Non-Biologic Complex Drugs for Multiple Sclerosis: A Narrative Review of the Regulatory and Clinical Implications for European Neurologists.

Authors: Óscar Fernández, Per Soelberg Sørensen, Giancarlo Comi, Patrick Vermersch, Hans-Peter Hartung, Letizia Leocani, Thomas Berger, Bart Van Wijmeersch, Celia Oreja-Guevara,

PUBLISHED: 05/04/2024

Managing MS in individuals ages 55 and above: a comprehensive review.

Authors: Óscar Fernández, Per Soelberg Sørensen, Giancarlo Comi, Patrick Vermersch, Hans-Peter Hartung, Letizia Leocani, Thomas Berger, Bart Van Wijmeersch, Celia Oreja-Guevara,

PUBLISHED: 09/10/2022

Diagnosis and treatment of progressive multiple sclerosis: A position paper.

Authors: Carlo Pozzilli, Maura Pugliatti, Patrick Vermersch, Nikolaos Grigoriadis, Mona Alkhawajah, Laura Airas, Celia Oreja-Guevara

ON-DEMAND WEBINARS & PRESENTATIONS

Access expert-led updates and discussions anytime. Perfect for busy professionals needing flexibility without missing key developments.

ON-DEMAND WEBINAR

Microglia – Clinical aspects: available and future treatment

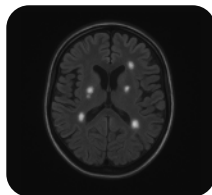

Speaker: Celia Oreja-Guevara (ES)

ON-DEMAND WEBINAR

Immune reconstitution – Clinical aspects: available and future treatment

Speaker: Partick Vermersch (FR)

ON-DEMAND WEBINAR

Translation of 2024 MS criteria for asymptomatic individuals into clinical practice: From RIS to MS

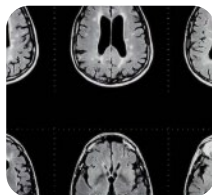

Speaker: Ch. Lebrun-Frenay (FR)

ON-DEMAND WEBINAR

New Diagnostic Criteria for MS

Speakers: Celia Oreja-Guevara (ES), Bassem Yamout (XB)

PRESENTATION

Beyond EDSS: How to monitor disease progression in MS

Author: Bart Van Wijmeersch (BE)

PRESENTATION

Neuromyelitis Optica

Authors: Patrick Vermersch (FR), Andrew Chan (CH), Celia Oreja-Guevara (ES)

LIVE SYMPOSIA & WEBINARS

Over 600 participants have joined our live webinars in the past months. Be part of the conversation next time. Stay informed, stay connected.

JUN.
14
2025

LIVE SYMPOSIUM → LEUVEN, BE

Annual MS Meeting 2025: Clarifying the evolving role of imaging in the diagnosis of Multiple Sclerosis

The Belgian Study Group for Multiple Sclerosis and ParadigMS Foundation has proudly held the Annual MS Meeting 2025, a premier event for the Belgian MS community.

SEP.
05
2025

SCIENTIFIC MEETING → ATHENS, GR

Continued medical education on translational neuro-immunology: Current and potential molecular targets for MS, NMOSD and MOGAD therapies.

Co-organised by ParadigMS and the Hellenic Academy of Neuroimmunology, this one-day programme explored the latest translational insights into molecular targets for MS, NMOSD, and MOGAD therapies.

NOV.
06
2025

LIVE SYMPOSIUM → BELGRADE, SER

ParadigMS Regional MS Symposium

Co-organised by the Serbian Neuroimmunology Society and ParadigMS Foundation, the Symposium was specifically designed to address the clinical and educational needs of the Balkan region.

LIVE WEBINAR

MRI & diagnostic criteria

Speakers: Celia Oreja-Guevara (ES), Jelena Drulovic (RS)

EACCME® ACCREDITED OR PARADIGMS CERTIFIED E-LEARNING

Beyond EDSS: How to Monitor Disease Progression in Multiple Sclerosis

ACCREDITED BY EACCME®
PUBLISHED: AUG. 2025

The new 1-hour e-learning course explores how to go beyond EDSS with a multimodal approach with functional tests, advanced imaging, biomarkers and patient-reported outcomes.

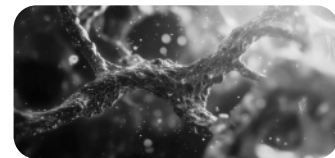

Role of microglia in neuroprotection and remyelination processes in MS

ACCREDITED BY EACCME®
PUBLISHED: DEC. 2024

PROJECTS

While much of our work is already contributing to clinical practice, several exciting projects are currently underway, promising to further enhance the ability to predict and manage MS progression.

Learn more about our ongoing project:

Prognosis in Multiple Sclerosis

Author: Sofie Aerts, PhD Researcher (BE)
Supervised by B. Van Wijmeersch (BE) & Liesbet M. Peeters (BE).

This research underscores the need for tools that translate complex prognostic factors into actionable insights, ultimately supporting more personalized and effective MS care.

ParadigMS Foundation

Independent and non-profit international group of expert neurologists, dedicated to improving multiple sclerosis, NMOSD, MOGAD, MG, CIDP patient care by translating, science and expert opinions into peer reviewed, clinically relevant continued medical education (CME) for neurologists and residents in Europe, the Middle East, and North Africa.

Visit our website to explore live sessions, peer-reviewed publications, and accredited e-learning.

OUR VALUES

Independent

Independent in the educational programs we elaborate and the opinion our experts express.

International

ParadigMS' board members come from Europe, the Middle East and North Africa.

Improving patient care

ParadigMS' activities contribute to an increased knowledge of MS, NMOSD, MOGAD, MG and CIDP care by general neurologists and other caregivers (nurses, general practitioners,...).

Not-for-profit

ParadigMS' deliverables and objectives are not for profit and all funds are dedicated to the realisation of our mission.

Experts

Our experts are active clinicians and have published in peer reviewed journals on multiple sclerosis, NMOSD and MOGAD.

MS INITIATIVES

ParadigMS is an active member of the Multi-Stakeholder Initiatives, a project initiated and led by the European Charcot Foundation.

It promotes a joint approach to coordinate existing multiple sclerosis initiatives aiming to avoid overlap in the actions and to increase the power of representation of the MS world at institutional level in Europe with the ultimate goal of improving MS patients' lives.

OUR EXPERTS

ParadigMS brings together internationally recognised experts to engage in peer review, foster knowledge exchange, and drive consensus on best practices to advance the quality of care.

How ParadigMS experts contribute to MS care:

- Develop and review **educational materials**
- Contribute to **peer-reviewed publications**
- Lead **webinars, symposia, and workshops**
- Participate in **research and knowledge exchange**
- Engage in **expert meetings and consensus-building**
- **Mentor and train** healthcare professionals
